

About BCS

Bradshaw Consulting Services, Inc. provides total Geographic Information System solutions to business, industry, and government clients throughout the US.

Located in Aiken, South Carolina, our winning team encompasses some of the best and brightest players from the information technology, web development and GIS world.

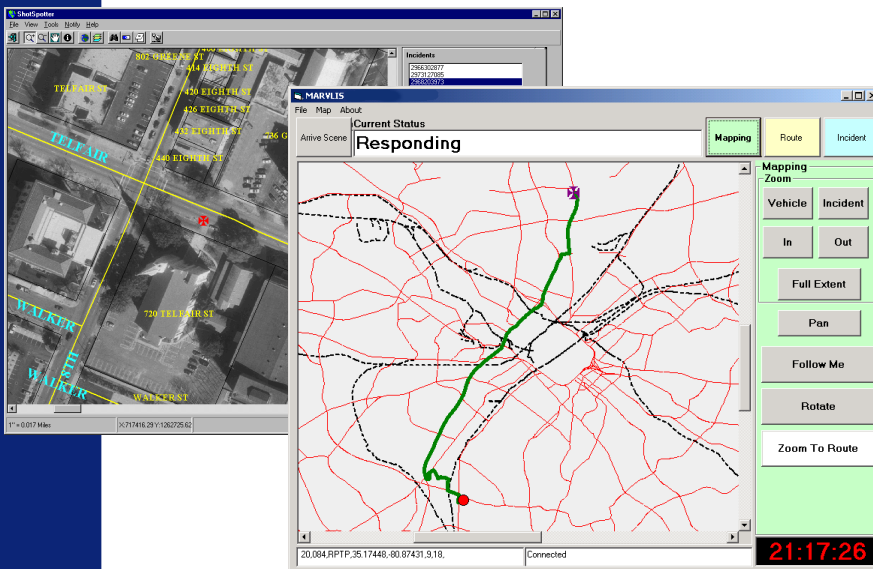

Consulting & Services

From design and implementation to full application development, we provide a multitude of GIS Services:

- ESRI® software resales and support
- Custom application development
- ArcSDE™ implementation
- Public Safety solutions and services
- ArcPad™ custom development

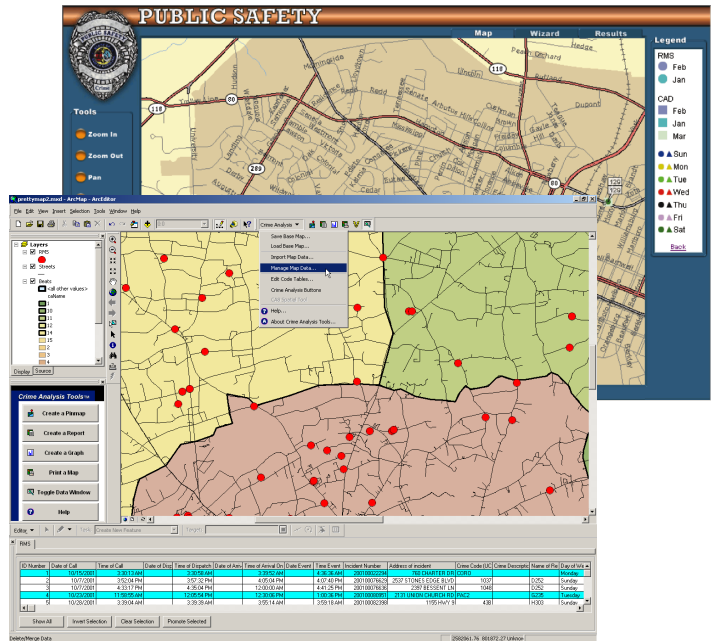

BCS brings these solutions to our clients by partnering with the leaders in GIS like ESRI®, LizardTech®, GDT®, Tele Atlas® and Trimble®.
